

**JS-15056 Private Integrated Services Network
(Transit Counter additional network feature)
- Specifications for inter-PBX signalling protocol -**

<Remarks>

1. Relations with international standards

This standard conforms to the first edition of the international standard ISO/IEC 15056(1997) with regard to the transit counter additional network feature in private integrated services digital network issued by ISO/IEC JTC1.

2. Summary of differences from international standards

Section 6.5.15 is deleted, because TTC standard doesn't support this supplementary service, and is indicated by “#” where required.

There are amendments made because of the editorial errors which exist in the original international standard, and are indicated by “notes” where required.

3. History of revisions

Version	Date of issue	Contents of revision
1	November 25 1999	Initial issue

4. Others

(1) Referred recommendations and/or standards

ITU-T recommendations: I.112, I.130, I.210,
