

JT-I460

Multiplexing Rate Adaption and Support of Existing Interfaces

1.Relations with international standards

JT-460 is based on ITU-T recommendation I.460 (Blue Book 1988 version).

2.Summary of departures from ITU-T recommendations

(1) Restricted 64 kbit/s transfer capability

(a) JT-I460 does not specify, any multiplexing rate adaption or support of restricted 64 kbit/s transfer capabilities for existing interfaces.

< Reasoning >:

There is no restricted 64 kbit/s transfer capability in the networks of Japan.

3. History of revision
