

1. Relations with international Standards

- (1) This standard is based on ITU-T Recommendation Q.766 (1988).

2. Summary of departures from ITU-T Recommendations

- (1) The following items are national matters in the ITU-T recommendation and are therefore deleted in the TTC standard.
- (a) Signaling points (Signaling system limitations)
 - (b) Number of circuits in a user signaling relation (Signaling system limitations)
