

JT-Q769.1 ISDN user part enhancements for the support of number portability

1. Relations with international standards

This standard is based on the draft ITU-T Recommendation Q.769.1 determined in the SG11 meeting in March 1999.

2. Summary of departures from ITU-T Recommendations

2.1 Optional items

None

2.2 National items

None

2.3 Others

(1) This Standard omits the description of the following items for the above ITU-T Recommendation, or selects one of the optional items described therein:

Description which is specified in ITU-T Recommendation but is out of scope of this Standard, is remained in this Standard and is marked with '#' to assist for understanding.

- (a) The descriptions for international connection are deleted because it is not required for national use.
- (b) The deleted items except (a) and the reasons for the deletion are shown in Table 1.

(2) This Standard includes the following additional items to the above ITU-T Recommendation (marked with '**' in the statements).

- (a) Procedures to support dropback for free phone number portability.

Table 1 Procedures deleted from ITU-T Recommendation Q.769.1

Procedure	ITU-T No.	Reason for deletion
Onward Routing	6	This item is not used for national use.
All Call Query	6	
Procedures for the Concatenated Addressing method	Annex A	The addresses defined in this item are not used for national use.
Procedures for the Separate Network Number Addressing method	Annex B	
Query on Release	Annex C	This item is not used for national use.
Procedures for forward transfer of number portability status information	Annex E	The parameters defined in this item are not used for national use.

Note : The onward routing and the all call query procedures, not marked with '#', are not specified but remained in this Standard so that they can be referred to in the dropback procedures described in Annex D.

2.4 Comparison of chapter composition between the ITU-T Recommendation and this standard.

There is no difference in chapter compositions from the above ITU-T Recommendation.

3. The history of revised versions

Versions	Date	Outline
1	November 25, 1999	Established.
2	November 30,2000	Added procedures to support the dropback for Freephone number portability.
