

# JT-Q774

## Transaction Capabilities Procedures

< Reference >

### 1. Relations with international Standards

This standard conforms to the draft texts ITU-T Recommendation Q.774, studied at ITU-T SG11 meeting in February 1996.

### 2. Summary of departures from ITU-T Recommendations

#### 2.1 Optional items

None

#### 2.2 National items

None

#### 2.3 Others

- (1) This standard contains nothing to precede items from the ITU-T Recommendation.
- (2) This standard includes the following additional description with '\*' symbol to the ITU-T Recommendation.

- (a) Another consideration for implementation of compatibility with ITU-T Recommendation, 1988 version (Section 3.2.3).

The reason is make clear the implementation direction in case of previously knowing the version of other side as ITU-T Recommendation, 1988 version.

- (b) The received route of "TR-Notice" indication primitive is added at the Figure A-5/JT-Q774 Dialogue handling at CSL (DHA) (Sheet 10 of 14) of Annex A.

The reason is to notice the TC user which request the return option.

- (3) This standard contains nothing to delete items from the ITU-T Recommendation.

Note: The descriptions included as further study in the ITU-T Recommendation are not described in this standard except some of them with '#' symbol for easy understanding.

### 2.4 Comparison of chapter composition between the ITU-T Recommendation and this standard
