

JT-X411-a Communication Protocols between VANs with regard to MHS

1. Relations with international standards

This standard is based on MHS profiles of TTC Standard JT-X411 part I and the following ITU-T Recommendations.

ITU-T Recommendations(1984)

X.400, X.401, X.409, X.410, X.411, X.420

ITU-T Recommendations(1988)

X.400, X.402,, X.411, X.420

2. Summary of departures from ITU-T Recommendations

The additional standard profile item is as follows:

The new profile of the fault pursuit protocol (TR-MPDU) was added in order to find the faulty part between VANs.
