

For a newcomer orientation Joining standardization meeting and guide the meeting tool using video contents

February 2025
Kaoru KENYOSHI
kaoru.kenyoshi@nict.go.jp

Registration and submitting a document to the ASTAP meeting

Register yourself at the meeting link.

Registration link is open on each meeting site. If you register the meeting, you should be eligible member of APT (member state in ESCAP, associate member, affiliate member).

[Click here](#)

Submit a document

Send a document to APT secretariat by e-mail before deadline. Please note that you should use the formal template of the document and indicate document type (Administrative Documents, Input Documents, Information Documents, Temporary Documents, Output Documents, Workshop Documents)

E-Mail : aptastap@apt.int

Remote participation

APT secretariat will prepare Zoom link to access the meeting and deliver it to the registered members.

Registration and submitting a document to the ITU-T meeting

Register yourself at the meeting link.

Registration link is open on each SG/TSAG site. If you register the meeting, you should be eligible member of APT (member state in UN, sector member, academia member).

[Click here](#) (for SG11 meeting in 19-28 February 2025)

Submit a document

Upload a document at [DDP](#) (Direct Document Posting) before deadline. If the meeting is RGM (Rapporteur Group Meeting), you can upload a document at [RGM platform](#). Please note that you should use the formal template of the document and indicate document type (Contribution, Temporally document).

Remote participation

ITU uses [MyWorkspace](#) for remote participating in the meeting. You should register the meeting to access it from remote.

Examples of contributions

Example of contributions to TSAG : Raising an issue

[TSAG-C028](#)

This contribution proposes that TSAG takes into consideration the importance of active support and contribution of international experts from different member states and develop working procedures to ensure that a new work item proposal meets the ITU strategic priorities and international nature of the ITU-T activities before it is approved.

Example of contributions to SG11: New WI proposal

[SG11-C124-R1](#)

This contribution proposes a new work item on protocols for Mk interface for QKDN.

Example of contributions to SG17: Proposed modifications for existing WIs

[SG17Q15RGM-Nov2023-3](#)

This contribution proposes modifications for the draft Recommendation X.sec_QKD_profr: Framework of quantum key distribution (QKD) protocols in QKD network.
